EXPLANATION.

To the Editor of The Times.

SIR, - Please allow me a small space in your valuable paper in which to make a few remarks concerning the Ridge Committee. On July 11th at the meeting at Lindsay School House, when I was absent, they appointed me one of the committee to draw up a list of grievances. In opening the meeting I was nominated to take the chair, which I refused to do, and plainly stated that I would not take any part in the meeting if Louis Kiel was in any way connected with the movement, and as I had signed a very able petition got up by the people last spring, I considered that was quite enough. I was told that the petition had not been sent; that it was handed to Mr. D. H. Macdonald to take down, but that he did not do so. But I knew better, as Mr. Macdonald had gone before the petition was made out. My reason for requesting this space is merely this: that I do not acknowledge my name in connection with the late movement.

NORTH WEST COUNCIL.

We are glad to see that the dignity of the North West Council has been materially increased by the addition of two representative members since its last session, and we hope that before long the point will be reached at which by the North West Territory Act, the Council will give place to a Legislative Assembly and it is certainly a matter for congratulation that the Government and electoral members are no longer so equally balanced as to make the casting vote of the Lieut. Governor insure the former having everything their own way. We do not wish to speak disrespectfully of the gentlemen who at present constitute the N. W. Council. They comprise as good men in every respect as are to be found in the Territories, and we have no doubt are quite equal to dealing with such matters as concern them, but when we consider what really constitutes the momentous questions of the day for the people of the Territories, it is with feelings of amusement not unmixed with pain that we read the Lieut. Governor's speech and the reply thereto. We notice from the latter that it is intended during the present session to make further representations to the Federal authorities, but beyond urging some modification of the present liquor laws, and the granting of money bonuses to local or branch railways, we have no hint as to the nature of these intended representations. As to the brewery question and the present system of liquor permits, it is not long since we sufficiently clearly expressed our views, nor is it necessary for us to add anything to what we have repeatedly urged directly and indirectly with regard to encouragement of railways. But what strikes us, if we may make a choice, as standing out most prominently amongst our wants and grievances is that of representation in the Dominion Parliament. We say this not only because we all feel that we are being governed in a manner utterly unconstitutional when taxed without representation, but because we know that such representation could not fail to speedily bring about the redress of all our other grievances. We may urge this with peculiar force and fitness just now, when the extension of the franchise to some two millions of British subjects is the all absorbing topic of interest in the Domestic policy of the Old Country, and when one of the three Estates is being openly warned that by endeavoring to frustrate this it is most seriously endangering its very existence. Now we are of opinion that the North West Council will search in vain for any subject of representation to the Federal authorities of more importance to the people whose interests they represent than this, nor do we see how such a course on their part could fail to receive serious attention. We have already expressed our want of faith in petitions sent to Ottawa, unless presented in such

a way as to render the perusal and consideration of them absolutely certain, and it occurs to us with regard to those being now prepared throughout this District, that they might have a better chance of success if presented through the Council, which we are sure would not refuse to forward and endorse them.

THE INDIANS.

It would undoubtedly be very gratifying to us all to receive the assurance of His Honor, Lieut. Governor Dewdney, who is also Indian Commissioner, to the effect that "despite the exaggerated reports which have been circulated to the prejudice of the Indians, no serious trouble prevails amongst the Indians of the Territories, were it not that we are in a position to estimate the statement at its true value. That the reports circulated must be most prejudicial to our interests we are only too well aware, and that is one of our reasons for having on several occasions raised our voice in denunciation of a system of treatment calculated to keep the Indians in an unsettled and discontented frame of mind. With regard to the reports alluded to by His Honor, we have the authority of those who acquired their information at the scene of the disturbances, for saying that the reports were in the main in no wise exaggerated, nor will the best interests of the country be in any way forwarded by hushing up the facts. Those best qualified to judge express the opinion that nothing but the determined pluck, coolness and resolution of Major Crozier, added to the excellent discipline of the police under his command (upon which we heartily congratulate the officers and men) prevented an outbreak, the horrible results of which it is impossible to more than guess at. Before this occurrence it was comfortably assumed that the Indians were very differently provided with arms and ammunition, and it is a painfully significant indication of what must have been for long past in the minds of these savages, to find them on the first symptom of a row springing up to a man better armed than the police themselves. Were there any insuperable difficulty in the way of keeping the Indians quiet we could only deplore the present state of things, but when we consider how easily all this might be prevented we can not restrain our righteous indignation. Neither the causes nor the cure are far to seek. The settlement of the country by the white man has driven away the herds of buffalo which formed the main support of the Indians. To compensate for this they are put by our Government into a position to support themselves by farming, but considering the utter unreasonableness of asking an Ethiopian to change his skin, common justice must dictate the ample provision of the actual necessities of life to even such Indians as can be only induced to do a very little towards their own support instead of the present scale of almost starvation diet. Again it is a most monstrous inquiry that the safety of settlers, who include numbers of women and children, should be exposed to the horrible possibilities of an Indian outbreak, by the Government sending up such utterly unsuitable men, as many of the farm instructors have proved themselves to be, some of whom in the event of an outbreak, should they by any chance escape the savages, would probably be the cause of the whole trouble be lynched by the white settlers.

PRESIDENTIAL ELECTION.

At the Chicago Convention Governor Cleveland has been selected as the Democratic ticket on the second ballot when the selection was made unanimous. Hendricks being the ticket for the Vice Presidency.

The contest for the Presidential chair will now be between Cleveland (Democrat) and J. V. Blaine (Republican). It has all the appearance of being a lively and close toss.

On the one hand the Independent-Republicans are not satisfied with Blaine, and on the other hand Cleveland will have the opposition of the Tammanyites. Blaine may also receive some opposition from those who think his policy would be one of too much interference in foreign affairs.

An exchange, whose editor has evidently been through the mill, contains the following short essay on an editor:
"An editor is a man who is liable to grammatical blunders, toothache, typographical errors and lapses of memory; and usually he has ninety seven thousand people watching to catch him tripping. He is a man of sorrow, acquainted with grief and poverty, and frequently liable to go ragged, hungry and dry for a very long period."

THE EDITOR.

Cum gratia of the Allen Fleet.
Almost every Canadian whose business takes him across the ocean had learnt to know and respect the late Captain Dutton, Commissioner of the Allen Fleet. He was an ideal captain, well educated, kind, a rigid disciplinarian, a born leader of men and strongly religious. His death, which was very sudden, from Bright's disease, will be felt as a personal loss by thousands of Canadians whose lives have at different times depended upon his skill. — Toronto Globe.

DEATH OF CAPT. DUTTON.

There was quite an imposing ceremony at Lambeth Palace on Tuesday, when Canon Anson was consecrated Bishop of Assiniboia and the Rev. J. Hamilton Bishop of Eastern Africa in the church adjoining the Palace. The rite was performed by the Archbishop of Canterbury, assisted by a number of English and Colonial Bishops, including the Bishop of London, Bishop of Rochester and the Bishop of St. Albans. In addition there were a large number of the local and ecclesiastical clergy. The Bishop of Saskatchewan preached the sermon, in the course of which he described the field of labor to which Canon Anson and the Bishop of Eastern Africa were to be sent. At the close of the service the bishops designate retired to the vestry and put on their rackets and then returned to the front of the communion table. Then the Queen's mandates were read, the oath of canonical obedience administered, and the act of consecration completed by the laying on of hands. The holy communion was afterwards administered to upwards of 1,200 persons. The new Bishop of Assiniboia will sail for Canada immediately. — London, Eng., Times.

NORTH WEST COUNCIL.

(Continued from Third Page.)

Tuesday, July 15.

The Council met at 11 a. m. His Honor the Lieut. Governor presiding. Present, Messrs. Richardson, McLeod, Rolston, Ireland, Irvine, Reed, Oliver, Macdonald, Hamilton, Jackson, White, Ross, Tarriff and Goldies.

The Lieut. Governor laid on the table a petition from the Rev. E. A. Stafford, President of the Conference of the Methodist Church, on the question of the manufacture of beer in the Territories. The petition was laid over for further consideration.

Mr. Tarriff presented a petition from a number of residents of the Moose Mountain district, asking an appropriation for certain improvements on the main trail to Moosomin.

Mr. Ross submitted a bill for exempting certain descriptions of property from seizure and sale under execution. The bill was read a first time and referred to the standing Committee on Civil Law.

Mr. Ross moved, seconded by Mr. Oliver, that the order to enquire the bill respecting auctioneers and peddlers be discharged, and that the said bill be recommitted for the purpose of adding a clause thereto providing that in all cases where licenses are issued under the provisions of said bill within the limits of a municipality, half the fees collected for the same shall be retained by the said municipality.

After debate the foregoing motion was by leave of the Council, seconded, and on motion of Mr. Ross, seconded by Mr. Oliver, it was resolved that the order to enquire the aforesaid be discharged, and the bill allowed to stand for third reading.

The order of the day being called for the second reading of the Bill respecting the Registration of Titles, the bill was read a second time and referred to a committee of the whole Council, Col. Richardson in the chair. After a short session the committee rose and reported progress and asked leave to sit again.

The Lieut. Governor introduced for consideration a bill to authorize companies incorporated outside the Territories to transact business therein. The bill was read a first time and referred to standing Committee on Civil Law.

The Council then adjourned until 2:30 p. m.

On re-assembling the Council went into Committee of the Whole on the Bill respecting the Registration of Titles, Col. Richardson in the chair.

His Honor resumed the chair.

The Chairman reported progress and asked leave for the Committee to sit again.

Col. Richardson, on behalf of the standing Committee on Civil Law, presented the following report:

Your Committee have had under consideration the following bills, viz:

A bill to regulate the costs of distress for rent and extra judicial seizure.

A bill respecting keepers of livery, boarding and sale stables.

A bill respecting distress for rent and interest on mortgages.

A bill concerning receipt notes, hire receipts, and orders for chattels.

And your Committee beg leave to report the same without amendments.

It was ordered that the said bills be severally read to morrow.

The Council was then adjourned until 2 o'clock on Wednesday.

Wednesday, July 16.

The Council met at 2 p. m. The Council went into Committee of the Whole to consider the proposed ordinance relating to Hotel Keepers and Boarding Houses, Mr. Reed in the chair.

A long discussion ensued, the proposed ordinance being considered clause by clause. It was finally adopted with amendments.

His Honor resumed the chair.

The ordinance was read a second time and on motion of Mr. Reed, was ordered to be engrossed.

Col. McLeod moved that the bill be referred to the Committee on Civil Justice, to be assimilated with the bill respecting Livery Stables and Boarding House Keepers.

The Bill concerning Hire Receipts Notes and Orders for Chattels was next considered. Mr. Jackson in the chair.

The introduction to the Bill gave rise to a good deal of discussion. Messrs. Ross, Oliver and Richardson contending

that the Bill would be useless if passed, and would not benefit either the farmers or the dealers in agricultural implements.

A deputation representing the implement dealers, and consisting of Messrs. Washbrook, Watson, Williams, Jones and McBride being present. Its members were on motion of His Honor the Lieut. Governor, allowed to appear before the Committee and explain the position and working of the business of implement dealers with regard to notes and hire receipts.

The Committee rose, reported progress and on motion of Col. Richardson, was granted leave to sit again.

MOOSE JAW.

From the News, July 15.

Reports from Buffalo Lake district are favorable in respect to the crop prospects.

The Council at a special meeting on Tuesday passed a by-law fixing the rate of taxation at six mills on the dollar.

THE RIVER ST. LAWRENCE.

No other river, I imagine, carries such a volume of pure cold water to the sea. Nearly all its feeders are trout and salmon streams, and what an airing and what a bleaching it gets on its course. Its history, its antecedents are unparalleled. The great lakes are its camping grounds; here its hosts repose under the sun and stars in green like that of states and kingdoms, and it is its waters that shake the earth at Niagara. Where it reaches the Saguenay it is twenty miles wide, and where it delinches into the Gulf it is a hundred. Indeed it is a chain of Horncie sublimities from beginning to end. The great expanse is a fit sequel to the great lakes; the spirit that is born in vast and tempestuous. Superb or takes its full glut of power in the fearful chasm. If paradise is hinted in the Thousand Islands, hell is unveiled in that pit of terrors. — Sport in America.
